

ATHENIAN OATH AT CARNEGIE LIBRARY

There will be placed in the Carnegie library today as a gift from A. R. Heywood a framed copy of the ancient Athenian oath. This bit of the moral code of the distant past is representative of the best life and thought of Athens.

It is one of the causes of the loyalty to Athens, and all that was Athenian. The years with their great changes have brought many rival claims to glory and interest, nevertheless Athens and Greece stand today for much that has never been surpassed in civil life.

The framed copy of the oath is given in hope that it will aid to foster a loyalty and reverence among Ogdenters for Ogdens and things Ogdentia. It reads as follows:

"We will never bring disgrace to this, our city, by any act of dishonesty or cowardice, nor ever desert our suffering comrades in the ranks. We will fight for the ideals and sacred things of the city, both alone and with many; we will reverence and obey the city's laws and do our best to inculcate a like respect and reverence in those above us who are prone to annul or to set them at naught; we will strive unceasingly to quicken the public sense of civic duty. Thus, in all these ways, we will transmit this city not less, but greater, better and more beautiful than it was transmitted to us."

If this oath can inspire this spirit to a deeper measure in the life of Ogdens people, it will be a blessing, indeed.

The Athenian oath is neatly printed and framed.

TRAIN ROBBERY AT MONTELLO RECALLED

When California makes merry in the Portola festival of October 22 to 25, at San Francisco, it will doff its beribboned hat to a genuine relic of the early days. In the Portola parade, a post of honor will be given Charlie McLean No. 1—a stage coach with a place in the history of the state.

E. E. Honn, city superintendent of the Wells Fargo Express company, today notified the Portola festival committee that the coach would be entered in the parade.

This coach is a link with the period of Bret Harte and Mark Twain. According to Honn, from \$5,000,000 to \$10,000,000 in bullion has been transported in it. How many times it was held up no records show, but Black Bart, Joaquin Murietta and Vasquez halted it in their heyday, or were defied by its messengers. It still carries bullet holes.

It was in the Charlie McLean that Horace Greeley made his noted ride to keep a lecturing engagement at Placerville, when the name wasn't Placerville, but Hangtown. Sam Clemens was its passenger many times when, in his newspaper days, he covered the Nevada legislature at Carson City. Not a few others of equal note have ridden in it.

The Charlie McLean was built at Concord, N. H., in 1858. Shipped around the horn, it was wrecked not far south of San Francisco, when the Carrier Pigeon went ashore. They got it out of the wreck, and Wells Fargo put it on the Placerville run. It did duty on many of the most noted stage routes of California and Nevada for years.

The Charlie McLean held the stage record between Reno and Virginia City—twenty miles in 94 minutes. That was going some in the days before the Pullman. The first seven miles were made in twenty minutes.

The coach was in active service as late as 1906, running from San Mateo to Pescadero. It was off Pescadero that the stage was shipwrecked in 1858. Wells Fargo sold it before it was put on this last run, and after the Ocean Shore railroad began serving the Pescadero region, the express company bought the Charlie McLean back.

It is still strong, however, and as capable as ever of carrying 18 passengers and a ton of express matter, with six good horses working at the tugs.

William Hodges, who took the coach over its record run, is the only surviving driver of Wells Fargo's overland express. He will again handle his old outfit in the Portola parade, according to the present plans.

It is also expected that "Hold the Fort" Ross—he was christened Aaron Y.—will take part in the parade. Ross, as shotgun messenger, guard and driver, is a Wells Fargo veteran still on the job, with headquarters in Ogden. He is expected to be at the festival.

Mr. Ross has never lost a cent of the millions he has guarded. He got his nickname in the '70's, when near Montello, Nev., alone, he stood off seven train robbers in a battle of three hours and twenty minutes. He killed one and wounded three. His car was twice fired and once dynamited, but he stood his ground—and won.

OWLS DEFEAT THE STATE LEAGUE

By the score of 6 to 3, the Order of Owls defeated the Ogden League in a fast game of baseball at Glenwood diamond yesterday afternoon. Shipley, on the mound for the Owls, had the batters opposing him almost at his mercy. Callahan, in the field, also was a star.

Out of eighteen games played, the Owls have won 16 and are out with challenges to any Ogden amateur team. Next Sunday they will play a game with the Mail Clerks.

The lineup yesterday was as follows:

Owls	Ogden League
Shipley	Roy Stone
Butterfield	Shupe

PRICES WENT DOWN AGAIN TODAY Wrights' Rummage Sale

One week of the time has gone--Thousands of bargains have also gone. This week will be a week of lively selling, for Prices Now Go Down.

"Put on a price that will sell it," is the order—that order will be in effect this week. Read the list of bargains.

Men's Suits
Good styles in fabrics of various weaves; values to \$10 **\$4.95**

Men's Suits
Suits from last season and former seasons; values to \$10 **\$2.95**

Boys' Suits
Boys' long pants suits, ages 12 to 19 years; values to \$12.50 **\$2.95**

Odd Coats
Men's odd coats; clay worsteds; sack and cutaway styles **75c**

98c, \$1.95, \$2.95, \$3.95

JAIL BREAK IS ATTEMPTED BY THREE

Yesterday afternoon inmates of the county jail attempted to make their escape by breaking the heavy steel wire netting on the inside of the iron-barred window on the north side of the west series of cells, and suspicion rests on F. B. Lewis, charged with white slavery, and Lewis Bryant, held for interfering with United States mail, both negroes, and Harry Donely, white, charged with grand larceny.

Last evening Lewis, the white slaver, sent a note to the night jailer, Deputy Sheriff Walter Richey, telling him that some one had been trying to saw through the north window of the county jail, at the west end. A hurried examination was made and it was learned that the heavy wire screen encompassing the inner part of the iron window had been broken loose from the sill from the top downward a number of inches. The screen was so arranged that it appeared to have been broken from the outside. It was soon discovered, however, that the wire had been broken from the inside and the instrument with which it was done was found in the west cell.

Whoever did the job, broke a heavy piece of iron, which had been used to support the steam pipes, from its fastenings and, by sharpening the bar, had given it such an edge that it served not only as a lever by which a pry loose the wire netting, but also as a saw, to cut it. Marks on the woodwork of the window were plainly visible on the inside, leaving no question in the minds of the officers that the work had been done from the corridor of the west tier of cells.

However, it was concluded that there might possibly be confederates outside and Officer Hadlock remained in hiding outside the jail, near the window, during the night with a view to apprehending anyone who might happen along.

This morning, when Sheriff DeVine came to the jail he was advised of the attempted delivery. Partial confessions have been made by the three men in question and it is expected that they will tell the entire story during the day.

It is thought that Lewis got "cold feet" before the job of sawing through the screen was completed and realizing that it would be next to impossible to saw through the heavy iron bars on the outside of the window before discovery decided that the safer plan was to claim someone from outside was trying to help in a jail break.

The iron bars to the window were saved partially in two a number of years ago by jailbirds and have never been replaced, and it is said by the sheriff that had the work of getting through the wire screen yesterday been started early in the evening, the heavy piece of iron taken from the steam pipes, leaving a hole large enough to permit a man to crawl through.

Yesterday, being Sunday, with many visitors at the jail, to meet the men incarcerated, the inmates were given more freedom in the main corridors. The doors leading to the corridor of the west cells were left open, these cells having not been used since McSwiggin and Martin were taken from them, so it was an easy matter for the two negroes and Donely to enter the place and begin work on the screen.

Young August Bodt, charged with attempted murder, also had the freedom of the corridors during the day, but the officers do not think he was implicated in the attempted jail break.

KNIGHTS LEAVE FOR DENVER CONCLAVE

El Monte Commandery No. 2, Knights Templar, left Ogden on the finely equipped special train provided for Utah knights, at 6 o'clock last evening for Denver, to attend the thirty-second triennial convocation of Knights Templar.

The special arrived from Salt Lake with the Knights of that city met the train in full uniform, at 4:30 o'clock, and a stop of an hour and a half was made in Ogden. One car was added here and another at Echo where the Park City delegation joined the special. There were some knights from Wyoming and Montana who took advantage of the special to accompany the Utah people.

DISH WASHING BY MACHINE A PLEASURE

Dish washing will be a pleasure instead of a disagreeable duty at the State School for the Deaf and the Blind when the new machine which has been ordered arrives. When that time comes, the dirty dishes will be piled in a basket, the electric motor will be started and in a few seconds the dishes will come from the machine, washed, rinsed and dried.

Supt. F. M. Briggs stated that the dish machine is but one of numerous improvements to be added to the school. When it opens this fall there will be various changes. Rooms and hall have been painted. New furniture has been added in some cases. Where walls cannot be painted, the situation is being thoroughly cleaned. The roof is being placed on the modern dairy barn and the foundation of the hospital has been completed. Before the first bad weather comes the fall term buildings will be ready for occupancy.

Just as a woman quits worry about her own age she begins to worry about that of her unmarried daughter.

WORLD'S MARKETS

WALL STREET.
New York, Aug. 11.—The one feature of interest in today's early market session was the announcement by the Union Pacific directors of the subscription price for its Southern Pacific holdings—92, with accumulated dividends. Southern Pacific, which, in common with other active issues, had shown some initial heaviness, fell over a point from last Saturday's price as the subscription terms became known, after which it moved feverishly.

Elsewhere the market reflected continued irregularity, advances being confined to issues of minor speculative importance, except Canadian Pa-

cific, which rose over a point. Trading was light and listless and bonds were irregular.

Gains and losses were quite evenly divided at the opening of today's market, although most of the active issues, particularly Union Pacific, Amalgamated Copper and Steel, were under last week's final quotations. Gains included a point for Canadian Pacific and two points for Texas company.

Weakness of corn and wheat corroborated reports of improvement to crops from yesterday's rain. The grain carriers moved up sharply and there was a better tone generally to the entire market.

The list was left entirely to its own devices or those of the trading element in the later session and that fact apparently chose to adopt a waiting policy. To those who favored the constructive side disappointment was expressed at the market's failure to make a more definite response to later crop developments.

The market closed strong. Speculation became lively in the closing hour and prices rose subsequently. Shorts took alarm at the appearance of some large purchasing or-

ders for Steel and they covered hastily in all directions.

WOOL.
St. Louis, Aug. 11.—Wool—Unsettled, northern and western middling, 19c@20c; slight burry, 15c@16c; heavy fine burry, 11c@12c.

Sugar.
New York, Aug. 11.—Sugar—Raw—Easy. Centrifugal, 37.73; molasses, 29.98; refined, steady. Crushed, 35.40; fine granulated, 44.70; powdered, 44.80.

Money.
New York, Aug. 11.—Money on call steady, 2 1/4@2 1/2 per cent; ruling rate, 2 1/4 per cent; closing bid, 2 1/4 per cent; last loan, 2 1/2 per cent.

Time loans steady, 60 days, 3 1/4@4 3/4 per cent; 90 days, 4 1/2 per cent; 6 months, 5 3/4@6 per cent. Prime mercantile paper, 6 to 6 1/2 per cent; sterling exchange firm, \$4.82 for 60 day bills, \$4.85 for demand, and commercial bills, \$4.83. Bar silver, 59 1/4c. Mexican dollars, 47c. Government bonds, steady; railroad bonds irregular.

Metals.
New York, Aug. 11.—Copper—Steady, standard, spot and August, \$14.50@14.75. September, \$14.75@15.75. October, \$15.20@15.75. electrolytic, \$15.75@16.00; lake, \$16.00; casting, \$15.50@15.62 1/2.

Tin—Firm. Spot, \$41.90@42.37 1/2; August, \$41.80@42.25; September and October, \$41.62@41.87 1/2. Antimony—Dull. Cookson's \$8.40@8.50.

Iron—Steady. No. 1 northern, \$16.00@16.25; No. 2 northern, \$15.50@15.75; No. 1 southern, \$15.35@15.55; No. 1 southern spot, \$15.25@15.50.

Chicago Grain.
Chicago, Aug. 11.—Corn prices broke today account the ending of the drought in Iowa and because of rain in northern Illinois and some other parts of the belt. Selling was very free, bearish sentiment being increased by heavier offerings of old corn on the part of country holders. There were signs, however, of many resting orders to purchase on the decline. The opening was half to 1 7/8c lower, December, which started at 65 1/4c to 65 5/8c, a loss of 1 1/2 to 1 3/4c, finally rallied to 65 3/4c.

Beneficial moisture northwest and liberal world shipments eased wheat.

December opened 1 1/4@3/8c down at 65 1/8c to 65 1/4c and rose to 65 3/8c. Oats weakened with corn. December, which at the outset was 43 3/8c to 43 1/2c, showing a fall of 3/8 to 1/2c, touched 43 1/4c, and then reacted to 43 5/8c.

Although firm early with hogs, provisions gave way to the influence of bearishness in coarse grains. First sales were 2 1/2c lower to 5c higher, with January options as follows:

Pork, \$19.70.
Lard, \$10.72 1/2.
Ribs, \$10.12 1/2.

Corn—The close was nervous with September 1 1/2 to 1 3/8c net lower at 65 1/8@65 1/4c.
Wheat—The close was firm with December at 89 1/2c, the same as Saturday night.
